

# Data Points

Issue 59

November 29, 2005

## Reporting of Events

All services provided by the Centers, regardless of the source of pay (Medicare, Medicaid, self pay, etc.), should be reported in the monthly Events data submission.

## MH Block Grant Performance Indicators on the Web

The MH Block Grant Performance Indicators are now available on the web on both the “Region Reports and Upload” page and on the “Department Reports” page. On the region-specific web page, there are separate drop-down boxes for the region-specific reports and the statewide summaries. On the Department Reports web page, all of the region-specific and statewide summary reports are in one drop-down box. Please contact Michele Blevins ([Michele.Blevins@ky.gov](mailto:Michele.Blevins@ky.gov)) if you have any questions.

## Updated Drug Codes

In mid-November, the new TEDS State Instruction Manual for Admissions was released. This included an updated Drug Codes table that paralleled some of the drug code changes the division of SA had proposed earlier. Also, some drugs moved to different categories. The changes are listed starting on page 2 – the **red** changes are the ones in the TEDS manual, which will most likely be required in 2007; the ones in ***bold italics*** (with a **5** as the third digit) are additional changes proposed by the division of SA that will need to be discussed by JCIC.

## Kentucky County Quiz!
